

NORTHWEST VISTA COLLEGE
CISCO CERTIFIED NETWORK ASSOCIATE (CCNA)
 CERTIFICATE PROGRAM
2009-2010 Catalog

Cisco Exploration courses 1 through 4 of the Cisco Networking Technologies Academy provide students with a basic foundation in networking. Students who successfully complete this portion of the program are prepared to earn the Cisco Certified Network Associate (CCNA) certification. Through this four course series, students will learn to operate the router and switch IOS, configure DHCP, NAT, frame relay, and a host of other protocols in a simulated local area and wide area networked environment. Students will learn how to manage these local and wide area networks, using the latest WAN technologies.

*NOTES: A course may be used only once to fulfill degree requirements.
 A grade of C or higher is required for all prerequisite and technical courses; while a grade of D or higher will satisfy NVC degree requirements for non-prerequisite courses.
 Most institutions require a grade of C or higher in order for a course to be considered for transfer.
 Check with the transfer institution to ensure that the courses taken at NVC will apply to the appropriate degree program.
 Select courses from the Core Curriculum selection list when specific courses are not listed.
