

NORTHWEST VISTA COLLEGE
CISCO CERTIFIED NETWORK PROFESSIONAL (CCNP)
 CERTIFICATE PROGRAM
2009-2010 Catalog

CCNP courses 1 through 4 of the Cisco Networking Technologies Academy provide students with a foundation in complex network configurations. Students who successfully complete this portion of the program are prepared to earn the Cisco Certified Network Professional (CCNP) certification. Through this four course series, students will learn to diagnose and troubleshoot advanced network problems.

__ITCC 2452 CCNP 3: Building Multilayer Switched Networks	4	__ITCC 2453 CCNP 4: Optimizing Converged Networks	4
Total	8	Total	8

*NOTES: A course may be used only once to fulfill degree requirements.
 A grade of C or higher is required for all prerequisite and technical courses; while a grade of D or higher will satisfy NVC degree requirements for non-prerequisite courses.
 Most institutions require a grade of C or higher in order for a course to be considered for transfer.
 Check with the transfer institution to ensure that the courses taken at NVC will apply to the appropriate degree program.
 Select courses from the Core Curriculum selection list when specific courses are not listed.
